

Smart Home Setup Guide

Welcome to your smart home journey! This quick guide outlines key steps:

1. Set up your home Wi-Fi and install the relevant mobile apps.
2. Begin with basic devices like smart bulbs or plugs.
3. Gradually integrate thermostats, cameras, and doorbells.
4. Group devices using routines or automation scenes.
5. Use voice assistants to streamline daily interactions.

Enjoy a smarter, more connected home!
